I am a Frontend Developer with two years of experience with Vanilla Javascript and React.JS (constantly learning) . Also I am Backend Developer since 9 months ago and my experience is based on .NET and SQL SERVER. I'm willing to learn new technologies as I am characterized by being self-taught and in constant professional and personal growth. Currently I am improving REACT.JS, .Net and SQL Server. I'm looking for a remote and international job for now, and I would prefer a job as a frontend developer but if the opportunity is related to Backend, I'll take it without hesitation.

## EXPERIENCE

### T&M CONSULTING

#### Backend Developer (HEICREDIT) — March, 2022 - Present

- Construction of part of the database modeling with SQL SERVER.
- Construction of the models and controllers for the correct operation of the API.
- In this project my accounting knowledge helped to unlock the continuation of the project, as one sprint was based on a financial calculator. And the construction of the models and controllers that corresponded to me helped to minimize the delivery time of the project.

**Tech Stack:** .NET, SQL SERVER.

#### Backend Developer (AMSTEL ULTRA) — October, 2021 - February, 2022

- Construction of part of the database modeling with SQL SERVER.
- Construction of the models and controllers for the correct operation of the API.
- With my contribution we were able to reduce the project delivery times.

**Tech Stack:** .NET, SQL SERVER.

### T&M CONSULTING — September, 2021 - October, 2021

#### Trainee Backend Developer — September, 2021 - October 2021

- Read the documentation about an API in .NET.
- Learn about SQL SERVER queries.
- Preparing endpoints to integrate in the Frontend

**Tech Stack:** .Net, SQL SERVER, Vue.JS, GIT.

## PROJECTS

### Freelances Projects -

<https://singer-biography.netlify.app/> - 2022', <https://aaconsultores.github.io/website/> - 2021

- With technologies such as Vanilla Javascript or REACT JS I have been able to build some websites both personal and for a client's request, even using HTML, CSS and/or some preprocessors. **Tech Stack:** REACT.JS, CSS, Bootstrap, GIT.

## SKILLS

**Programming Languages:** Intermediate: HTML, CSS, Javascript.

**Frameworks and Tools:** Intermediate: REACT.JS, .NET CORE, FIGMA, SASS, GIT.

**Data Base:** Intermediate: MySQL, SQL SERVER.

**Agile:** SCRUM

**Languages:** Intermediate: English; Native: Spanish.
